

COMPACT OVENS

AVAILABLE IN BOTH CLASSIC AND LINEA STYLING, SMEG COMPACT OVENS WITH HEIGHTS OF 38CM OR 45CM OFFER GREAT VERSATILITY AND MANY OPTIONS IN THE MODERN FITTED KITCHEN. DRAWERS CAN BE ADDED TO THE CLASSIC 38CM OVENS TO FILL A 45CM OR 60CM STANDARD CAVITY.

Linea 45cm compact ovens

The Linea compact range of ovens are available in three versions: a combination microwave oven, a steam oven and a microwave oven with grill. Available in stainless steel, silver glass or black options, these compact ovens broaden the range and can be combined with full size 60cm ovens and the Linea microwave door cover with a hydraulic hinge lifting system.

Classic 45cm compact ovens

The same three 45cm options as the Linea range are also offered in a Classic style. The Classic family is truly versatile, including 60cm and 90cm single ovens, double in-column and under counter ovens, and 6 compact ovens.

Classic 38cm options

There are three 38cm height touch control Classic compact ovens, one a multifunction oven with pyrolytic cleaning, another a 23 litre steam oven, and the final option a combination microwave oven.

Storage and warming drawers

The simple stainless steel storage drawer is 7cm in height, and when fitted with a 38cm compact oven it fills a standard 45cm cavity. Warming drawers are available in 15cm and 21cm heights to match Linea and Classic compact ovens in coordinating colours.
